

Who we are

We are the leading manufacturer of pipes and related services for the world's energy industry and other industrial applications.

Our manufacturing system integrates steelmaking, pipe rolling and forming, heat treatment, threading and finishing across 17 countries.

We also have a network of four R&D centres focused on enhancing our product portfolio and improving our production processes.

Market Segments

- Oil Country Tubular Goods (OCTG)
- Line Pipe
- Hydrocarbon Processing
- Low Carbon Energy
- Power Generation
- Industrial & Mechanical
- Automotive

\$12 billion USD

Annual net sales

8.7 million tons

Annual manufacturing capacity of steel pipe

25,000

Employees worldwide

Products & Services

- Oil Country Tubular Goods (OCTG)
- TenarisHydril connections
- Offshore & onshore line pipe
- TenarisShawcor coating solutions
- Artificial lift
- Coiled tubing

Our **Rig Direct**® service model improves operational efficiency, reduces costs and enhances reliability for our oil and gas customers.

With our **One Line**® project management service, Tenaris integrates the supply of pipe with TenarisShawcor coating solutions, accessories and bends under a single responsibility, optimizing efficiencies across the supply chain.

Sustainability

We are committed to reducing our CO2 emissions intensity by 30% by 2030 across scopes 1, 2, and 3, compared to 2018 levels through greater use of recycled steel scrap and adoption of renewable energy sources.

In 2025, we invested \$16.9 million USD in our communities, with 81% dedicated to education. At the heart of our initiatives is the **Roberto Rocca Technical Schools** network. These schools were founded to improve the level of technical education in our communities in an inclusive way, using innovative teaching methods and technologies for classrooms and laboratories.

Data as of December 2025

Canada at a Glance

Tenaris’s history in Canada began over 25 years ago with the acquisition of AlgomaTubes. Today, we employ over 1,260 people across four provinces and are the leading OCTG manufacturer for both seamless and electric resistance welded (ERW) steel pipes in Canada.

We are a trusted partner to top oil and gas companies, known for our advanced manufacturing and integrated Rig Direct® service model. We are the only Canadian producer of seamless Oil Country Tubular Goods (OCTG), premium connections, line pipe and coating. Our state-of-the-art connection technologies have helped customers set records in the Montney and Duvernay and in thermal wells.

Products

Oil Country Tubular Goods (OCTG)	Coiled Tubing
Line Pipe	Sucker Rods
TenarisShawcor coating solutions	Accessories

Industrial Footprint

1 manufacturing facility	5 service centres
1 threading & accessories facility	3 coating facilities
1 commercial office	1 R&D centre

Operations

In Sault Ste. Marie we have an annual manufacturing capacity of 370 thousand tonnes for seamless pipe and 200 thousand tonnes for ERW line pipe.

In 2025, the Sault Ste. Marie Industrial Centre achieved records in each of our manufacturing lines.

Investments

\$2.4M+ CAD Community

(since 2021)

We are committed to Canada’s long-term industrial growth, investing in infrastructure, healthcare, education, and skilled labor development in our communities.

\$355M CAD Industrial Centre

(since 2020)

Since 2020, we have invested \$355 million CAD in our Sault Ste. Marie Industrial Centre to boost innovation and productivity.
